General Physics : Multiple - Choice Questions : Waves , Thermodynamics , Electricity and Magnetism

Ibraheem Nasser

This book is a collection of 954 multiple-choice questions in waves, thermodynamics, electricity, and magnetism. These questions have been given, over couple of years, to the students of General Physics II course (Phys102) at King Fahd University of Petroleum and Minerals. They are organized according to the sections of Phys102 textbook: Fundamental of Physics by Halliday, Resnick and Walker, 6th edition. This collection might be very helpful for students preparing for exams in Phys102 or similar courses. We advise students strongly to study and understand the course material very well before attempting practicing some of these questions. Instructors might also find this book a valuable source for questions that can be used in examples or tests. The statistics provided with some of the questions might be very valuable in comparing performances.

From reader reviews:

Jonathan Gomes:

Information is provisions for people to get better life, information currently can get by anyone at everywhere. The information can be a knowledge or any news even an issue. What people must be consider if those information which is from the former life are challenging to be find than now is taking seriously which one would work to believe or which one the resource are convinced. If you find the unstable resource then you understand it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take General Physics : Multiple - Choice Questions : Waves , Thermodynamics , Electricity and Magnetism as the daily resource information.

Lidia Mejia:

Do you have something that you want such as book? The e-book lovers usually prefer to decide on book like comic, short story and the biggest one is novel. Now, why not seeking General Physics : Multiple - Choice Questions : Waves , Thermodynamics , Electricity and Magnetism that give your fun preference will be satisfied through reading this book. Reading routine all over the world can be said as the means for people to know world considerably better then how they react toward the world. It can't be explained constantly that reading addiction only for the geeky person but for all of you who wants to end up being success person. So , for all of you who want to start examining as your good habit, you can pick General Physics : Multiple - Choice Questions : Waves , Thermodynamics , Electricity and Magnetism become your current starter.

Ruby Guillen:

With this era which is the greater person or who has ability in doing something more are more special than other. Do you want to become one of it? It is just simple solution to have that. What you should do is just spending your time not much but quite enough to enjoy a look at some books. One of the books in the top record in your reading list is actually General Physics : Multiple - Choice Questions : Waves , Thermodynamics , Electricity and Magnetism. This book that is certainly qualified as The Hungry Inclines can get you closer in turning out to be precious person. By looking way up and review this guide you can get many advantages.

Cassandra Harvey:

As we know that book is essential thing to add our information for everything. By a reserve we can know everything we really wish for. A book is a range of written, printed, illustrated or even blank sheet. Every year was exactly added. This book General Physics : Multiple - Choice Questions : Waves , Thermodynamics , Electricity and Magnetism was filled regarding science. Spend your free time to add your knowledge about your scientific disciplines competence. Some people has several feel when they reading a new book. If you know how big benefit from a book, you can really feel enjoy to read a publication. In the modern era like now, many ways to get book that you wanted.
