During the Reformation, the Book of Psalms became one of the most well-known books of the Bible. This was particularly true in Britain, where people of all ages, social classes and educational abilities memorized and sang poetic versifications of the psalms. Those written by Thomas Sternhold and John Hopkins became the most popular, and the simple tunes developed and used by English and Scottish churches to accompany these texts were carried by soldiers, sailors and colonists throughout the English-speaking world. Among these tunes were a number that are still used today, including "Old Hundred", "Martyrs", and "French". This book is the first to consider both English and Scottish metrical psalmody, comparing the two traditions in print and practice. It combines theological literary and musical analysis to reveal new and ground-breaking connections between the psalm texts and their tunes, which it traces in the English and Scottish psalters printed through 1640. Using this new analysis in combination with a more thorough evaluation of extant church records, Duguid contends that Britain developed and maintained two distinct psalm cultures, one in England and the other in Scotland.
