## **An Inquiry into the Nature and Causes of the Wealth of Nations: A Selected Edition (Oxford World's Classics) Adam Smith**

While it has been pointed to time and again by governments and pundits promoting laissez-faire economics, *The Wealth of Nations* actually shows that Adam Smith viewed capitalism with a deep suspicion, and tempered his celebration of a self-regulating market with a darker vision of the dehumanizing potential of a profit-oriented society. Smith did not write an economics textbook, but rather a panoramic narrative about the struggle for individual liberty and general prosperity in history. This edition includes generous selections from all five books of *The Wealth of Nations*. It also provides full notes and a commentary that places Smith's work within a rich interdisciplinary context.

**About the Series:** For over 100 years **Oxford World's Classics** has made available the broadest spectrum of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, voluminous notes to clarify the text, up-to-date bibliographies for further study, and much more.
