## **Global Logistics Management** Craig Voortman

An understanding of logistics is of primary importance in the modern business world and this text allows students and businesspeople alike to become comfortable with the fundamentals of this discipline. In its explanation of logistics—the process of moving a commodity or service from customer order to consumption—this guide provides insight into every step of the process, from order processing and purchasing to packaging and warehousing. Tips are included for integrated logistics, customer service, materials flow, and strategic logistics plans.
