Management of Information Security

Michael E. Whitman, Herbert J. Mattord

Management of Information Security Michael E. Whitman, Herbert J. Mattord

Discover a managerially-focused overview of information security with a thorough presentation of how to most effectively administer it with **MANAGEMENT OF INFORMATION SECURITY, 5E**. Insightful, engaging content prepares you to become an information security management practitioner able to secure systems and networks in a world where continuously emerging threats, ever-present attacks, and the success of criminals illustrate the weaknesses in current information technologies. You'll develop both the information security skills and practical experience that organizations are looking for as they strive to ensure more secure computing environments. This edition offers a tightened focus on key executive and managerial aspects of information security while still emphasizing the foundational material to reinforce key concepts. Updated content reflects the most recent developments in the field, including NIST, ISO, and security governance.

From reader reviews:

Jane Abraham:

Book is to be different for every single grade. Book for children till adult are different content. As it is known to us that book is very important normally. The book Management of Information Security had been making you to know about other understanding and of course you can take more information. It is extremely advantages for you. The guide Management of Information Security is not only giving you a lot more new information but also being your friend when you sense bored. You can spend your own personal spend time to read your book. Try to make relationship together with the book Management of Information Security. You never sense lose out for everything in case you read some books.

James Rodriguez:

Do you one of people who can't read pleasurable if the sentence chained within the straightway, hold on guys that aren't like that. This Management of Information Security book is readable by simply you who hate the perfect word style. You will find the details here are arrange for enjoyable reading through experience without leaving perhaps decrease the knowledge that want to give to you. The writer involving Management of Information Security content conveys the thought easily to understand by many people. The printed and e-book are not different in the information but it just different by means of it. So , do you still thinking Management of Information Security is not loveable to be your top record reading book?

John Barstow:

A lot of people always spent their own free time to vacation as well as go to the outside with them family members or their friend. Are you aware? Many a lot of people spent many people free time just watching TV, or playing video games all day long. If you wish to try to find a new activity this is look different you can read some sort of book. It is really fun for yourself. If you enjoy the book which you read you can spent the whole day to reading a publication. The book Management of Information Security it doesn't matter what good to read. There are a lot of folks that recommended this book. We were holding enjoying reading this book. In the event you did not have enough space to create this book you can buy the particular e-book. You can more easily to read this book from the smart phone. The price is not very costly but this book features high quality.

Jill Lee:

As a student exactly feel bored for you to reading. If their teacher inquired them to go to the library or even make summary for some book, they are complained. Just tiny students that has reading's heart and soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that examining is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach

Chinese's country. So , this Management of Information Security can make you truly feel more interested to read.
