McGraw-Hill Connect® provides online presentation, assignment, and assessment solutions. It connects your students with the tools and resources they'll need to achieve success. With Connect, you can deliver assignments, quizzes, and tests online. A robust set of questions and problems are presented and aligned with the textbook's learning goals. As an instructor, you can edit existing questions and author entirely new problems. Track individual student performance?by question, assignment, or in relation to the class overall?with detailed grade reports. Integrate grade reports easily with Learning Management Systems (LMS) such as WebCT and Blackboard?and much more.

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective.

From reader reviews:

Marilyn Washington:

Playing with family in a very park, coming to see the marine world or hanging out with buddies is thing that usually you could have done when you have spare time, after that why you don't try point that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Connect 2 Semester Access Card for Vector Mechanics for Engineers: Statics and Dynamics, you may enjoy both. It is good combination right, you still would like to miss it? What kind of hangout type is it? Oh come on its mind hangout guys. What? Still don't have it, oh come on its known as reading friends.

Debra Rubino:

You may spend your free time to read this book this book. This Connect 2 Semester Access Card for Vector Mechanics for Engineers: Statics and Dynamics is simple to create you can read it in the recreation area, in the beach, train along with soon. If you did not include much space to bring the printed book, you can buy the e-book. It is make you simpler to read it. You can save the actual book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Patricia Whitmore:

On this era which is the greater man or woman or who has ability in doing something more are more important than other. Do you want to become considered one of it? It is just simple method to have that. What you should do is just spending your time not much but quite enough to enjoy a look at some books. Among the books in the top listing in your reading list is actually Connect 2 Semester Access Card for Vector Mechanics for Engineers: Statics and Dynamics. This book that is certainly qualified as The Hungry Inclines can get you closer in turning out to be precious person. By looking right up and review this book you can get many advantages.

Kimberly Duda:

As a student exactly feel bored in order to reading. If their teacher expected them to go to the library or make summary for some reserve, they are complained. Just little students that has reading's soul or real their passion. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that reading is not important, boring as well as can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore, this Connect 2 Semester Access Card for Vector Mechanics for Engineers: Statics and Dynamics can make you truly feel more interested to read.
