Handbook of Phycological Methods: Volume 4: Ecological Field Methods: Macroalgae

Handbook of Phycological Methods: Volume 4: Ecological Field Methods: Macroalgae

This fourth volume of the Handbook of Phycological Methods, with its field-oriented perspective, is a comprehensive treatment of recently developed methodologies in the rapidly advancing field of marine benthic algal ecology. Both traditional and modern methods are presented along with the limitations of various projectspecific examples. References and discussions include how procedures may be adapted to suit different habitats, diverse algal systems, or other conditions. This book contains sufficient detail to be valuable to a wide audience, including both advanced and student researchers and educators throughout the academic and technical community.
