## **Handbook of Intuition Research** Marta Sinclair

This groundbreaking interdisciplinary *Handbook* showcases the latest intuition research, integrated in a framework that reconciles various views on what intuition is and how it works.

The internationally renowned group of contributors presents their findings in five areas. Part I explores different facets of the intuiting process and its outcome, the role of consciousness and affect, and alternate ways of capturing intuition. Part II deals with its function in expertise, strategy, entrepreneurship, and ethics. Part III outlines intuitive decision making in critical occupations, legal profession, medicine, film and wine industry, and teaching. Part IV pushes the boundaries of our current understanding by exploring the possibility of non-local intuition, based on the principles of quantum holography. Part V investigates new techniques for developing intuitive skills.

This cutting-edge, comprehensive *Handbook* will prove essential for academics and research students of social sciences, particularly management, psychology, sociology, entrepreneurship, leadership, team dynamics, HR and training. It will be also an invaluable resource for industry professionals searching for soft-core methods to increase productivity and creativity/innovation, to improve leadership and organizational climate, or to adopt new staff training and development methods.
