The Book of Mormon: 1830 Edition, Newly Typeset for Modern Readers Joseph Smith

This book is not a facsimile of the 1830 Book of Mormon. Rather, it presents the text of the 1830 edition in a new format designed especially for easy reading. The text is based on several digitized versions that have been electronically compared to ensure accuracy, and the original paragraph breaks, punctuation, spelling, and typographical errors have been preserved. Modern chapter and verse references are provided in superscript for ease of use. The typeface in this edition is the beautiful but versatile Charter, with such refinements as character protrusion and font expansion, resulting in excellent, highly readable type. For the first time, you can enjoy the 1830 Book of Mormon in a modern format.
