Hundreds of LIVE-CODE examples (i.e., complete, working programs) of real applications throughout the book and on the accompanying CD allow readers to run the applications and see and hear the outputs. Readers learn to incorporate multimedia into Web pages and Web-based applications to enhance their presentations. Chapters on e-Business and Accessibility for people with disabilities expose readers to a wide range of other topics. For Internet and Web-based computer programmers, and others in organizations and businesses who need to develop their own Websites and pages.
