Covering an impressive scope of subjects in literary and cultural theory, from Freud, Heidegger and Barthes to Fish, Rorty and Bhabha, *Theory That Matters* offers a welcome up-to-date assessment of the state of the discipline. Such a recapitulation serves as a point of departure for the examinations of the new practices across the arts and media and of the innovative interpretative tools suggested by these practices. The contributors take their examples from an amazing variety of contexts and thus prove that the very dynamics of theory is a fascinating phenomenon. Succeeding several recent anthologies that have cast doubt on the aims of theory, the present volume launches its defence and, at the same time, demonstrates that this is not to be achieved at the expense of praxis. The book clearly shows that theory owes its currency to its multiple functions, among others, as a procedure of interpretation, a vehicle for philosophical reflection, and a formulation of an ideological stance. Marek Paryz, Associate Professor, Institute of English Studies, University of Warsaw; Editor of the Polish Journal for American Studies
