Stay Safe on Campus!: Tips for Prevention, Techniques for Emergencies Marcia E. Kelley

The purpose of this book is to open communication between students and their parents and school personnel about how to keep students safe in today's environment. To Students Getting ready for college is a special time. You are experiencing so many new things in life such as getting your driver's license, a car, a job, meeting people from different cultures, planning trips on your own, independence and much more. It's easy to be caught up in all these experiences and to forget about safety because... let's face it, safety is somewhat boring compared to the other things, but it is just as important for you to be smart about safety so that you can truly enjoy your college experience. To Parents As a concerned parent, you want to help your student choose the best school for their interests. Whether you are sending your first child off to college or a younger child, treat every child's experience as if it is your first child's experience. Even if this child is going to the same school as that of an older sibling, go to a campus visit. Times have changed. Schools adopt new policies, build new buildings, and add new staff... You get the picture.
