The Auditor: An Instructional Novella James K. Loebbecke

This unique book reaches beyond the abstract theory presented in most standard textbooks to portray the principles and practices of Auditing as they are actually applied in the workplace. The novella—which forms a single, on-going, fictional case study meant to supplement a text—traces the professional life of Jack Butler, graduate of Farwestern University and current CPA. As readers progress, they share with Jack, his clients, and colleagues various aspects of a typical career in public accounting—aspects students will most likely encounter during their own careers.
