Every story requires worldbuilding.

What if there was a way to simplify the process of worldbuilding? A system that would open the door to your mind and create a constant flow of ideas?

Advanced Worldbuilding is a unique guide that takes you by the hand and helps you understand the ‘why’ of worldbuilding. Written in the form of a conversation with a friend, taking you, step by step, through the process of creation with a focus on the end goal: To tell a great story.

Advanced Worldbuilding provides you with the tools to craft your own “world journal,” and does so in a simple, straight forward way. Wanted Hero creator Jaime Buckley provides tips, templates and methods he uses to organize the notes you already have, while unveiling a system to develop whatever your heart desires. Create continents, races, governments, religions, technology, magic, plant & animal life—all with a check lists of what readers will be looking for.

Detailed examples of the Wanted Hero world are provided and used, to demonstrate how the author achieved his own results.

Transform your notes into a personalized “hub” of information, which can be added to at any time. The guide provides master copies of all templates for your personal use...or as examples for you to create your own.

Advanced Worldbuilding is a fantastic tool for any writer, regardless of skill level...and a critical addition to any worldbuilding arsenal.
