**Follow my month long weird experiment and how I created two new streams of traffic to a “forgotten” web site using only free advertising and with some surprise and unexpected side benefits. Then implement my weird experiment for yourself and get new traffic to your web site. To help you I have included a free bonus download for you too!**

This book explains how, over the course of a single month, I conducted a weird experiment to drive traffic and visitors to a web site I had put together about eighteen months prior and then let sit there without doing anything with it.

I always meant to do something with it, drive traffic, attract visitors, though my attention was deflected in to other projects and this little web site I’m talking about in this eBook sat in its little hidden corner of the internet all alone and lonely.

Then, after a chance conversation with a friend one evening, the experiment was conceived and put in to action. I decided from the off to share the results in a book – and now I have. It is all inside step-by-step with easy to follow explanations and screen shots showing you exactly how I created new streams of traffic to my “forgotten” web site using only free advertising and with some surprise by-products which made it more effective.

Now you can do that same.....! Without giving too much away – one of the free advertising methods I used is “old school” and the other you may not have heard of before.

### **Free Bonus Download Included**

Yes, I have included some free bonus materials for you as a direct download bonus from within the book. The bonus materials consist of things I put together to help with my strange experiment and may now help you too should you put it in to action for yourself. Just a few short minutes a day to get new visitors to your web site(s) for free. No Facebook, no Twitter, nothing like that. Something slightly different.
