A plight is lurking about in workplaces across the world. It is in the form of certain coworkers, bosses, contractors, or even directly reporting employees. These people are sly, cunning, and tricky. Their bad behavior is usually subtle, occasionally obvious, and always stressful.

When we read or hear about workplace bullies, they're usually depicted as being loud, obnoxious, and harassing several colleagues. The recipients of their behavior report many stress symptoms that often harms their health.

But what if you're experiencing stress symptoms at work and no one is shouting at you, being obnoxious, or harassing you? What if someone at work is subtly badgering you, treating you in ways that demean you, and doing it on purpose?

In *Not All Bullies Yell and Throw Things: How to Survive a Subtle Workplace Bully*, Glory Borgeson lays out a new definition of a workplace bully whose fingerprint on people's lives is just as debilitating as that of an obvious bully.
