S.T.A.B.L.E. Cardiac Module: Recognition and Stabilization of Neonates with Severe CHD Kristine A. Karlsen, Lloyd Y. Tani

The S.T.A.B.L.E. Program is a neonatal education program that focuses on the post-resuscitation/pre-transport stabilization care of sick newborns. S.T.A.B.L.E. stands for the 6 assessment parameters covered in the program: Sugar, Temperature, Airway, Blood pressure, Lab work, and Emotional support for the family. The S.T.A.B.L.E. Program is designed to provide important information about neonatal stabilization for maternal/infant healthcare providers in all settings - from community hospitals and birth centers, to emergency rooms and hospital environments. "The Cardiac Student Handbook" provides general guidelines for the assessment and stabilization of neonates with suspected congenital heart disease. Fully reviewed by highly regarded neonatologists, nurses and physicians, this text includes more than 124 pages, heavily illustrated in full color.
