Numerology is the study of numbers and their occult significance in your life. Numbers 1 to 9, with their vibrational energies are considered the language of the universe. Take away numbers from our lives and we are left with almost no universal communication. How will you ask for the price, size, cost or volume of an item? How will you measure or quantify an item or time?

Thus numbers are a very important aspect of ones life. The first and the most important personal mysterious number, is the Life Path Number that is based on your birthday. This number implies what you were meant to experience during your lifetime.

The course of your life or any other life for that matter, according to numerology goes through 9-year cycles, incorporating the vibrational energies of the numbers 1 to 9. Once the 9 cycles are done, you begin once again the next period of 9 cycles.

This 9 cycles repetition is then repeated for the rest of your lives. These nine-year cycles are called your personal Year Cycle. By the way, you are not alone in experiencing this personal cyclical energy, but your spouses, friends, family, lovers, bosses and co-workers are all experiencing their own Year Cycles.

Knowing where each of you are in regards to ones own personal cycle can tell whether the two of you will be in sync or out of sync over the course of the years ahead. Each birthday signifies a new personal Year Number for you.

You need to know two things in order to calculate a personal Year Number:

- 1) The person's birthday (month, day), and**
- 2) The year of the person's most recent birthday.**
